Recommended
for this Installation

① Acrylic Letters

Carefully unpack lettering and remove back film. Be sure that all letters are completely seated to the plastic diffuser layer and all lines are straight. Make adjustments as needed.

② Acrylic Letters

Carefully unpack lettering and remove back film. Be sure that all letters are completely seated to the plastic diffuser layer and all lines are straight. Make adjustments as needed.

Prior to the sign installation, a single-gang outlet (supplied by others) is to be installed behind the sign (in accordance with National Electrical Code). Use the drawing below to plan the sign location.
